SUMMARY

As a Digital Game Design graduate and former Art Intern at Sportsnet Group, I have gained strong proficiency in both the artistic and technical aspects of game development. I possess advanced skills in creating 2D/3D assets using Photoshop, Illustrator, and Blender, as well as in game engine and mechanics development using Unity (C#) and Unreal Engine.

My work approach is rooted in blending design and coding disciplines to create functional solutions. I am an innovative professional committed to continuous learning, and I am dedicated to adding value to every stage of a project through my technical expertise and creative skills.

PROFESSIONAL EXPERIENCE

Art Intern, Sportsnet Group

02/2026 – 06/2026 | İstanbul

I created advertising designs for brands such as McDonald's, Visa, AXA, AXA Milliyet YSÖ, and ROPS!

- Unity Essentials 🔗

PROJECTS

You can find all my projects on my website: mustafamertcinar.myportfolio.com 🔗

Combat Game

Includes all sword, bow, and shield damage dealing and damage taking animations.

Weapon System

It includes all pistol, automatic rifle, and shotgun mechanics, animations, and effects.

Procedural Animation

I tried to create an animation similar to the one Drake does in the Uncharted game.

PixelArt Blackjack

Pixel version of the Blackjack game
